PROFESSIONAL SUMMARY

I am a Full-Stack Developer with a diverse set of skills in both front-end and back-end technologies, including HTML/CSS, JavaScript, NodeJS, and PostgreSQL. I am passionate about creating web applications that deliver seamless user experiences. In addition to my technical skills, I am skilled in communicating and collaborating with clients and stakeholders. I work efficiently in fast-paced environments, using Agile and Scrum methodologies to manage projects and deliverables. I am experienced in understanding client needs, translating requirements into technical specifications, and delivering projects within strict deadlines.

SKILLS

- Technical Skills   Java, Go, Javascript, Node.js, Git, Github, Mysql, MongoDB, PostgreSQL
- Behaviors Skills   Growth mindset, Teamwork, Communication, Problem-Solving.
- Langauge Skills   English (beginner)

EXPERIENCE

Full stack Developer   **August 2022 - Current**
Unit Company
- Built databases and table structures for web applications.
- Corrected, modified and upgraded the website to improve performance.
- Worked with back-end developers to design APIs.
- Coordinated deployments of new feature updates and fixes.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.
- Developed functional databases, applications and servers to support websites on back-end.
- Used NodeJS and SQL to develop and manage databases.

Junior Software Developer Bootcamp   **Jan 2022 - Apr 2022**
Generation Thailand
- Developed technical skills, such as Git, HTML, CSS front-end, back-end and database
- Final Project: Build an exercise-tracking web application using MERN stack (Mongo, Express, React and Node.js). The application allows users to record exercise information, such as date, weight, height, exercise type, and calories burned

Junior Front-End Developer   **Aug 2021 - Sep 2021**
Dprompt Innovation
- Built and maintained company's website
- Learned new programing language (C#) and new framework (Blazor).

EDUCATIONS

Thai-Austrian Technical College (Chonburi, Thailand)   **2010 - 2012**
- Diploma in Instrumentation

Thai-Austrian Student Council - Activity President
- Organized activities for faculty students, including Thai-Austrian Rural Camp and Freshman Welcoming Events

EXTRACURRICULAR ACTIVITIES & ACHIEVEMENT

Codestar Java Programing (Bangkok, Thailand)   **2020**
- Learn Java, Algorithm, GCP, Database and framework (Spring-boot) and know to enter junior developer roles

Data Analytics and Data Fluency: Exploring and Describing Data Certificate (Linkedin)   **2021**
- Learn fundamentals of data fluency or the ability to work with data and how exploring data with graphs and describing data with statistics
